

corn, grain, field and pop at 0.01 ppm; and corn forage and fodder, field, pop, and sweet at 0.01 ppm. The proposed analytical method for determining residues is gas-liquid chromatography.

2. *PP 1F4026*. Miles, Inc., has proposed amending 40 CFR 180.436 to establish tolerances for cyfluthrin, cyano (4-fluoro-2-phenoxyphenyl)methyl-3-(2,2-dichloroethyl)-2,2-dimethylcyclopropanecarboxylate, in or on the following raw agricultural commodities: corn, fresh at 0.01 part per million (ppm); corn, grain, field and pop at 0.01 ppm; and corn forage and fodder, field, pop, and sweet at 0.01 ppm. The proposed analytical method for determining residues is gas-liquid chromatography.

#### Rohm and Haas Co.; Approval of Pesticide Product Registrations

**AGENCY:** Environmental Protection  
Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** This notice announces Agency approval of applications submitted by Rohm and Haas Company, to conditionally register the pesticide products Enable 2F, RH-7592 Technical, and Indar WSP containing a new active ingredient not included in any previously registered products pursuant to the provisions of section 3(c)(7)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended.

**FOR FURTHER INFORMATION CONTACT:** By mail: Cynthia Giles-Parker, Product Manager (PM) 22, Registration Division (7505C), Office of Pesticide Programs, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Rm. 229, CM #2, Environmental Protection Agency, 1921 Jefferson Davis Hwy, Arlington, VA 22202, (703-305-5540).

**SUPPLEMENTARY INFORMATION:** EPA issued a notice, published in the **Federal Register** of February 5, 1992 (57 FR 4450), which announced that Rohm

and Haas Co., 100 Independence Mall West, Philadelphia, PA 19106, had submitted applications to conditionally register the pesticide products Indar 2F (now known as Enable 2F) and RH-7592 Technical (EPA File Symbols 707-EGR and 707-EGN), containing the active ingredient fenbuconazole alpha-[2-(4-chlorophenyl)ethyl]-alpha-phenyl-1H-1,2,4-triazole-1-propanenitrile at 22.8 and 98.3 percent respectively, an active ingredient not included in any previously registered products.

EPA later received an application from the company to register the product Indar 75WSP (EPA File Symbol 707-EGO), containing the active ingredient fenbuconazole at 75 percent. However, since the notice of receipt of application was not published in **Federal Register**, as required by FIFRA, as amended, interested parties may submit written comments within 30 days from the date of publication of this notice for this product only.

The applications were approved on February 15, 1995, for one technical and two end-use products listed below:

1. RH-7592 Technical for formulation and manufacture of fungicides only (EPA Registration Number 707-230).

2. Enable 2F for disease control on pecans (EPA Registration Number 707-231).

3. Indar 75WSP for use to control diseases on apricots, cherries, nectarines, and peaches (EPA Registration Number 707-239).

A conditional registration may be granted under section 3(c)(7)(C) of FIFRA for a new active ingredient where certain data are lacking, on condition that such data are received by the end of the conditional registration period and do not meet or exceed the risk criteria set forth in 40 CFR 154.7; that use of the pesticide during the conditional registration period will not cause unreasonable adverse effects; and that use of the pesticide is in the public interest.

The Agency has considered the available data on the risks associated with the proposed use of fenbuconazole, and information on social, economic, and environmental benefits to be derived from such use. Specifically, the Agency has considered the nature and its pattern of use, application methods and rates, and level and extent of potential exposure. Based on these reviews, the Agency was able to make basic health and safety determinations which show that use of fenbuconazole during the period of conditional registration will not cause any unreasonable adverse effect on the environment, and that use of the pesticide is, in the public interest.

These products are conditionally registered in accordance with FIFRA section 3(c)(7)(C). If the conditions are not complied with the registrations will be subject to cancellation in accordance with FIFRA section 6(e). The terms of the conditional registrations will require Rohm and Haas Company to submit the following studies:

1. Fish Life Cycle (Guideline Reference Number 72-5).

2. Growth and Reproduction of Aquatic Plants - Tier 2 (123-2).

3. Droplet Size Spectrum (201-1).

4. Drift Field Evaluation (202-1).

5. Storage Stability of Fenbuconazole Reflecting a 49-month Storage Period (171-4(e)).

Consistent with section 3(c)(7)(C), the Agency has determined that these conditional registrations are in the public interest. Use of the pesticides are of significance to the user community, and appropriate labeling, use directions, and other measures have been taken to ensure that use of the pesticides will not result in unreasonable adverse effects to man and the environment.

More detailed information on these conditional registrations is contained in an EPA Pesticide Fact Sheet on fenbuconazole.

A copy of this fact sheet, which provides a summary description of the chemical, use patterns and formulations, science findings, and the Agency's regulatory position and rationale, may be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, VA 22161.

In accordance with section 3(c)(2) of FIFRA, a copy of the approved label and the list of data references used to support registration are available for public inspection in the office of the Product Manager. The data and other scientific information used to support registration, except for material specifically protected by section 10 of FIFRA, are available for public inspection in the Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 1132, CM #2, Arlington, VA 22202 (703-305-5805). Requests for data must be made in accordance with the provisions of the Freedom of Information Act and must be addressed to the Freedom of Information Office (A-101), 401 M St., SW., Washington, D.C. 20460. Such requests should: (1) Identify the product name and registration number and (2) specify the data or information desired.

**Rohm & Haas Co.; Notice of Filing of Pesticide Petitions**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** EPA has received from the Rohm & Haas Co. petitions to establish pesticide tolerances for benzoic acid, 3,5-dimethyl-1-(1,1-dimethylethyl)-2-(4-ethylbenzoyl) hydrazide, in or on apples and walnuts.

**ADDRESSES:** By mail, submit written comments to: Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. In person, bring comments to: Rm. 1132, CM #2, 1921 Jefferson Davis Hwy., Arlington, VA.

Information submitted and any comment(s) concerning this notice may be claimed confidential by marking any part or all of that information as "Confidential Business Information" (CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the comment(s) that does not contain CBI must be submitted for inclusion in the public record. Information not marked confidential may be disclosed publicly by EPA without prior notice to the submitter. Information on the proposed test and any written comments will be available for public inspection in Rm. 1132 at the Virginia address given above, from 8 a.m. to 4 p.m., Monday through Friday, excluding legal holidays.

**FOR FURTHER INFORMATION CONTACT:** By mail: Rick Keigwin, Product Manager (PM-10), Registration Division (7505C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Rm. 713, CM #2, 1921 Jefferson Davis Hwy., Arlington, VA, (703)-305-7618; e-mail: keigwin.rick@epamail.epa.gov.

**SUPPLEMENTARY INFORMATION:** This notice announces that EPA has received

from the Rohm & Haas Co., Independence Mall West, Philadelphia, PA 19105, notices of filing under section 408 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a) for pesticide petitions (PP) 4E4375 and 4F4280 to amend 40 CFR part 180 to establish tolerances for benzoic acid, 3,5-dimethyl-1-(1,1-dimethylethyl)-2-(4-ethylbenzoyl) hydrazide, in or on the raw agricultural commodities apples at 1.0 part per million (ppm) (PP 4E4375) and walnuts at 0.1 ppm (PP 4F4280). The proposed analytical method for determining residues is HPLC separation with UV detection.

**Mevinphos; Amendment to Cancellation Order and FIFRA Section 6(g) Notification**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of issuance of amended cancellation order.

**SUMMARY:** On June 30, 1994, Amvac Chemical Corporation (Amvac) of Los Angeles, California, requested voluntary cancellation of all registrations containing mevinphos (2-carbomethoxy-1-methylvinyl dimethyl phosphate, alpha and beta isomers, trade name Phosdrin). Pursuant to section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), EPA canceled all mevinphos registrations on July 1, 1994. The Cancellation Order contained certain limitations upon the distribution, sale, and use of existing stocks of canceled pesticide products containing mevinphos. EPA has modified the existing stocks provision of the Cancellation Order to extend the period for sale, distribution, and use of existing stocks of certain canceled products containing mevinphos through November 30, 1995. At the end of this period, all product in the channels-of-trade, including product in the hands of growers, will be subject to a recall which has some provisions for reimbursement. Product sold after

February 27, 1995, will be labelled with additional protective requirements. This notice also amends the timeframe for reporting the possession of canceled mevinphos products as required under section 6(g) of FIFRA.

**DATES:** The amended cancellation order became effective January 13, 1995.

**FOR FURTHER INFORMATION CONTACT:** By mail: Richard Dumas, Special Review Branch, Special Review and Reregistration Division (7508W), Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Special Review Branch, 3rd floor, 2800 Crystal Drive, Arlington, VA, (703) 308-8015.

**SUPPLEMENTARY INFORMATION:****I. Introduction****A. Background**

On June 30, 1994, Amvac requested voluntary cancellation of all pesticide product registrations containing mevinphos as an active ingredient. On July 1, 1994, EPA issued a Cancellation Order for all mevinphos registrations pursuant to FIFRA section 6(f)(1). In the **Federal Register** of August 1, 1994 (59 FR 38973), EPA issued a Notice announcing receipt of the request for cancellation, the Cancellation Order, and the FIFRA section 6(g) notification requirements. The Cancellation Order prohibited the distribution and sale of existing stocks of canceled pesticide products containing mevinphos after December 31, 1994, and prohibited the use of existing stocks after February 28, 1995. Existing stocks refer to those stocks of previously-registered mevinphos products which were in the United States and were packaged, labeled, and released for shipment prior to the cancellation on July 1, 1994. Also, the Order required Amvac to develop and implement an acceptable Recall Plan for the recall of mevinphos products that were in the hands of dealers and distributors after December 31, 1994.

On December 28, 1994, EPA amended the Cancellation Order by extending distribution and sale of existing stocks of canceled mevinphos products through January 14, 1995, to facilitate work on a pending agreement between EPA and Amvac. On January 13, 1995, EPA entered into an agreement with Amvac and issued a new amendment to the Cancellation Order which changed the existing stocks provisions in the amended Cancellation Order by extending the period for distribution, sale, and use of mevinphos, established new use restrictions, and ordered the recall of mevinphos products.
